Handwritten text in Persian script, likely a historical or administrative document. The text is densely packed and covers most of the page. It appears to be a list or a series of entries, possibly related to land, taxes, or military matters. The script is cursive and characteristic of the Safavid or Qajar periods. There are some large, bold characters that might serve as section headers or markers. The text is written on aged, yellowed paper with some staining and a large brownish mark near the top center.

Vertical handwritten text on the left margin, possibly a commentary or a list of names. It is written in the same cursive script as the main text. The text is somewhat faded and difficult to read in detail, but it seems to be organized in a structured manner, possibly as a list of names or titles.

Vertical handwritten text on the right margin, continuing the list or commentary from the main text. It is also written in cursive script and appears to be a continuation of the same type of information as the left margin.

Handwritten text in Persian script, likely a historical or administrative document. The text is arranged in several columns, with some lines written in red ink. The script is dense and cursive, characteristic of historical Persian manuscripts. The document appears to be a record of events or a list of items, possibly related to a military or administrative campaign.

Handwritten text in Persian script, continuing from the top page. The text is arranged in several columns, with some lines written in red ink. The script is dense and cursive, characteristic of historical Persian manuscripts. The document appears to be a record of events or a list of items, possibly related to a military or administrative campaign.

Handwritten text in Persian script, including several lines of red ink. The text is arranged in approximately 10 horizontal lines across the page. Some lines are more densely written than others, and there are some large, stylized characters that may represent specific words or phrases. The ink is dark brown or black, with some red ink used for emphasis or headings.

Handwritten text in Persian script, continuing from the top page. The text is arranged in approximately 10 horizontal lines. It includes several lines of red ink, likely serving as a continuation of the text or as a separate section. The handwriting is consistent with the top page, and there are some large, stylized characters. The overall appearance is that of a handwritten manuscript or document.

Handwritten text in Persian script, likely a list or index, with several lines of text. Includes some red ink markings and a small diagram or table structure.

Handwritten text in Persian script, continuing the list or index from the top page. Includes some red ink markings and a small diagram or table structure.

Handwritten text in Persian script, likely a list or index. The text is arranged in columns and includes several red headings or section markers. The script is dense and cursive.

Handwritten text in Persian script, continuing the list or index from the previous page. It features similar columnar layout and red headings. The text is highly legible despite the cursive style.

Handwritten text at the top of the page, including the title "تذکره" (Tadhkirah) and the name "امیر کبیر" (Amir Kabir).

Main body of handwritten text on the top page, written in a dense cursive script.

Main body of handwritten text on the bottom page, continuing the narrative or list.

Handwritten text at the bottom of the page, possibly a concluding section or a separate entry.

Handwritten text in Persian script, likely a manuscript or historical document. The text is densely packed and includes several lines of red ink, possibly indicating titles or important sections. The script is written in a cursive style characteristic of the Safavid or Qajar periods.

Handwritten text in Persian script, continuing from the previous page. It features a large section of red ink at the top, which may be a title or a specific heading. The text is written in a consistent cursive style, with some variations in line spacing and alignment.

Handwritten text in Persian script, likely a historical or administrative document. The text is arranged in several columns, with some lines written in red ink (rubrication). The script is dense and cursive, characteristic of historical Persian manuscripts. The document appears to be a record of events or a list of items, with some lines starting with 'در روز' (On the day) and others with 'در وقت' (At the time).

Handwritten text in Persian script, continuing the document from the previous page. The text is arranged in several columns, with some lines written in red ink. The script is dense and cursive. The document appears to be a record of events or a list of items, with some lines starting with 'در روز' (On the day) and others with 'در وقت' (At the time).

کتابخانه مجلس شورای اسلامی

Handwritten text in Persian script, arranged in approximately 15 horizontal lines. The text is dense and appears to be a collection of notes or a list of items. Some words are written in larger, bolder script, possibly indicating headings or important terms. The ink is dark, and the paper shows signs of age and wear.

Handwritten text in Persian script, arranged in approximately 15 horizontal lines. This page contains more text, similar in style to the top page. There are some red markings or highlights on the page, possibly indicating specific sections or corrections. Main body of handwritten text in the top section, consisting of several columns of dense script.

Handwritten text in the middle section of the page, continuing the prayer or discourse.

Handwritten text at the bottom of the page, including the closing lines of the prayer.

Handwritten text in Persian script, arranged in approximately 15 columns. The text is dense and appears to be a list or a series of entries, possibly related to a historical or administrative document. Some words are written in larger, bolder script, possibly indicating titles or important terms. The ink is dark, and the paper shows signs of age and wear.

Handwritten text in Persian script, arranged in approximately 15 columns. This page continues the text from the previous page, maintaining the same dense, columnar layout. The script is consistent, and the overall appearance is that of a well-preserved historical manuscript. There are some variations in the size and style of the characters, which may be used for emphasis or to denote different types of information.

Handwritten text in Persian script, densely packed and written in a cursive style. The text is arranged in several columns across the page. A prominent red heading or section marker is visible near the top center. The ink is dark, and the paper shows signs of age and wear.

Handwritten text in Persian script, continuing from the previous page. The text is organized into multiple columns. A red heading is present at the top left of this section. The script is consistent with the previous page, showing a high density of characters and a clear cursive hand.

Handwritten text in Persian script, likely a list or index. The text is arranged in several columns, with some words highlighted in red ink. The script is dense and cursive, typical of historical Persian manuscripts. The text appears to be a list of items or names, possibly related to a collection or inventory.

Handwritten text in Persian script, continuing the list or index from the previous page. The text is arranged in several columns, with some words highlighted in red ink. The script is dense and cursive, typical of historical Persian manuscripts. The text appears to be a list of items or names, possibly related to a collection or inventory.

Handwritten text in Persian script, densely packed and written in a cursive style. The text is arranged in several columns across the page. Some words are written in larger, bolder script, possibly indicating a title or a specific section. The ink is dark, and the paper shows signs of age and wear.

Handwritten text in Persian script, continuing from the previous page. The text is organized into columns and includes various lines of prose. There are some larger characters and some text that appears to be written in a different hand or style, possibly indicating a change in the author or a specific part of the document. The overall appearance is that of a well-used manuscript.

Handwritten text in Persian script, likely a historical or administrative document. The text is densely packed and covers most of the page. Some words are written in red ink, possibly indicating titles or important terms. The script is a cursive style typical of the period.

Handwritten text in Persian script, continuing from the previous page. The text is dense and covers the majority of the page. There are several lines of text written in red ink, which may be significant. The handwriting is consistent with the top page.

Handwritten text in Persian script, arranged in approximately 10 columns. The text is dense and appears to be a historical or administrative document. Some words are written in red ink, likely indicating titles or important terms. The script is a cursive style typical of the Safavid or Qajar periods.

Handwritten text in Persian script, arranged in approximately 10 columns. This page continues the text from the previous page. The script is consistent, and there are some red ink markings. The text is densely packed and covers most of the page area.

Handwritten text in Persian script, arranged in approximately 15 vertical columns. This page continues the text from the previous page, with similar density and layout. The script is consistent throughout the document.

Handwritten text at the top of the page, including the word "بسم الله" (In the name of God).

Main body of handwritten text on the top page, written in a cursive script.

Handwritten text on the left margin of the bottom page, possibly a page number or reference.

Main body of handwritten text on the bottom page, continuing the narrative or list.

Handwritten text at the bottom of the page, including a signature or date.

Handwritten text in Persian script, arranged in approximately 15 horizontal lines. The text is dense and appears to be a list or a series of entries, possibly related to a historical or administrative document. Some words are written in larger, bolder script, possibly indicating titles or important terms.

Handwritten text in Persian script, arranged in approximately 15 horizontal lines. This page continues the list or entries from the previous page. The script is consistent with the top page, showing a structured list of items or names.

Handwritten text in Persian script, arranged in several columns. The text appears to be a list or a series of entries, possibly related to a historical or administrative document. The script is dense and fills most of the page.

Handwritten text in Persian script, arranged in several columns. The text appears to be a list or a series of entries, possibly related to a historical or administrative document. The script is dense and fills most of the page.

Handwritten text at the top of the left page, including the word "تجدید" (Tajdid) on the far left.

Main body of handwritten text on the left page, consisting of several columns of dense script.

Main body of handwritten text on the right page, continuing the script from the left page.

Handwritten text in two columns, top page. Includes a large red title or heading on the right side.

Handwritten text in two columns, bottom page. Includes a large red title or heading on the right side.

Handwritten text at the bottom of the page, including a red title or heading.

Handwritten text in Persian script, arranged in several columns. The text is dense and appears to be a collection of verses or a long letter. Some words are written in red ink, likely indicating emphasis or specific titles. The script is cursive and characteristic of the Safavid or Qajar periods.

Handwritten text in Persian script, arranged in several columns. This page continues the text from the previous page. The script is consistent, with some red ink used for headings or specific words. The layout is similar to the top page, with multiple columns of text.

Handwritten text in Persian script, arranged in approximately 15 horizontal lines. The text is dense and appears to be a list or a series of entries, possibly related to a medical or scientific treatise. The script is cursive and well-preserved.

Handwritten text in Persian script, arranged in approximately 15 horizontal lines. This page continues the text from the previous page, maintaining the same dense, cursive style. The text is organized into a structured format, likely a list or a series of numbered items.

Handwritten text in Persian script, densely packed and written in a cursive style. The text is arranged in several columns across the page, with some lines starting with large decorative initials. The ink is dark, and the paper shows signs of age and wear.

Handwritten text in Persian script, continuing from the previous page. The text is organized into columns and includes various phrases and sentences. There are some larger, more prominent words or phrases that stand out due to their size or placement.

Handwritten text in Persian script, arranged in columns. The text is dense and appears to be a list or a detailed account of various items or events. The script is cursive and fills most of the page.

Handwritten text in Persian script, arranged in columns. This page continues the text from the previous page, with similar density and cursive style. The text is organized into vertical columns, with some larger characters or headings interspersed.

Handwritten text in Persian script, likely a historical or administrative document. The text is densely packed and includes several lines of red ink, possibly indicating titles or important sections. The script is written in a cursive style characteristic of the Safavid or Qajar periods.

Handwritten text in Persian script, continuing from the previous page. The text is densely packed and includes several lines of red ink, possibly indicating titles or important sections. The script is written in a cursive style characteristic of the Safavid or Qajar periods.

Handwritten text in Persian script, likely a historical or administrative document. The text is densely packed and covers most of the page. It appears to be a list or a series of entries, possibly related to land, taxes, or military matters. The script is in a cursive style typical of the period.

Handwritten text in Persian script, continuing from the previous page. It includes several lines of text, some of which are written in red ink (rubrication). The text is organized into columns and appears to be a continuation of the list or document from the top page. There are some larger, more prominent headings or sections in red.

Handwritten text in Persian script, likely a manuscript or historical record. The text is densely packed and covers most of the page. It appears to be a collection of notes or a list of items, possibly related to a specific event or location. The script is cursive and characteristic of the Safavid or Qajar periods.

Handwritten text in Persian script, continuing from the top page. The text is organized into several columns and appears to be a list or a series of entries. The script is consistent with the top page, suggesting it is part of the same document. The text is densely packed and covers most of the page.

Handwritten text in Persian script, likely a list or index. The text is arranged in several columns, with some lines written vertically. The script is dense and cursive. There are some red markings or initials interspersed within the text.

Handwritten text in Persian script, continuing the list or index from the previous page. The text is arranged in several columns, with some lines written vertically. The script is dense and cursive. There are some red markings or initials interspersed within the text.

Handwritten text in Persian script, arranged in several columns. The text is dense and appears to be a historical or administrative document. Some words are written in larger, bolder script, possibly indicating titles or important terms. The ink is dark, and the paper shows signs of age and wear.

Handwritten text in Persian script, arranged in several columns. This page continues the text from the previous page. The script is consistent, and the layout is similar, with multiple columns of text. There are some variations in the size and style of the handwriting, which may indicate different parts of the document or different scribes.

Handwritten text in Persian script, arranged in several columns. The text is dense and appears to be a collection of notes or a manuscript. The script is cursive and characteristic of the Safavid or Qajar periods. The columns are roughly parallel to each other, filling most of the page area.

Handwritten text in Persian script, arranged in several columns. The text is dense and appears to be a collection of notes or a manuscript. The script is cursive and characteristic of the Safavid or Qajar periods. The columns are roughly parallel to each other, filling most of the page area.

Handwritten text in Persian script, arranged in approximately 10 horizontal lines. The text is dense and appears to be a list or a series of entries, possibly related to a historical or administrative document. The script is cursive and well-preserved.

Handwritten text in Persian script, arranged in approximately 10 horizontal lines. This page contains a continuation of the text from the top page, with similar density and cursive style. The text is clearly legible and organized in a structured manner.

Handwritten text at the top of the page, likely a header or introductory lines.

Main body of handwritten text on the top page, arranged in several columns.

Handwritten text at the top of the bottom page, likely a header or introductory lines.

Main body of handwritten text on the bottom page, arranged in several columns.

Handwritten text in Persian script, densely packed and written in a cursive style. The text is arranged in several columns across the page.

Handwritten text in Persian script, densely packed and written in a cursive style. The text is arranged in several columns across the page.

Handwritten text in Persian script, densely packed and written in a cursive style. The text is arranged in several columns across the page, with some lines appearing to be part of a list or a structured document. The ink is dark, and the paper shows signs of age and wear.

Handwritten text in Persian script, continuing from the previous page. The text is organized into columns and includes various lines of prose or poetry.
